

It is frankly, outrageous that Sinclair would pre-empt programming to air a piece on a presidential candidate that has serious credibility problems. The idea that a media conglomerate would do this is frightening.

Hence the problems we face when just a few are allowed to control access to the many. I urge you to stop Sinclair from doing this. It is the clearest example of corporate propoganda I have ever seen in this country. It is a sad day in the United States when this kind of shameless corporate manipulation is even considered. The FCC is supposed to help us, the citizens, against this kind of interference in a free election. Please do the responsible thing and stop Sinclair from taking this reckless action.

Kind regards,
Geoffrey Kooris
